

Ressursrapporten for funn og felt 2019

27. september

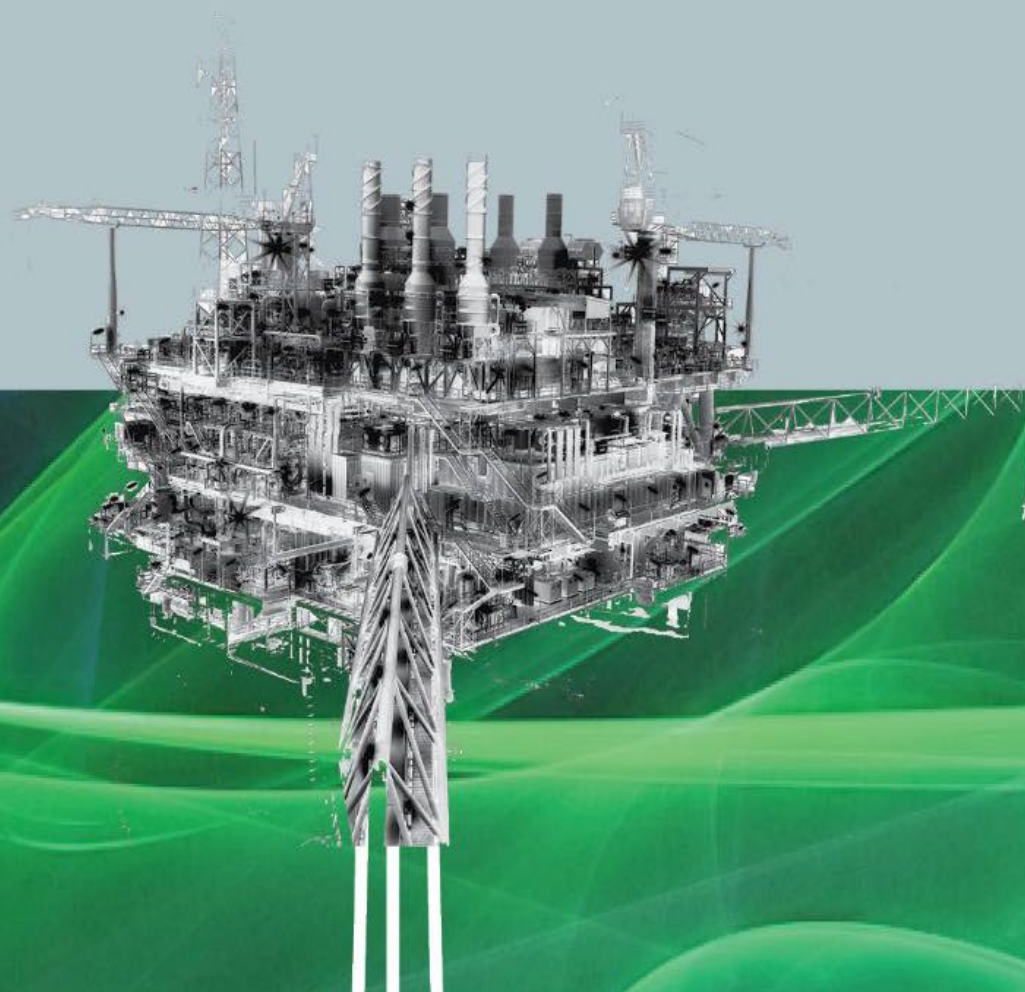

Over halvparten igjen

Store ressurser i felt

Ressurs-
rapporten
2019

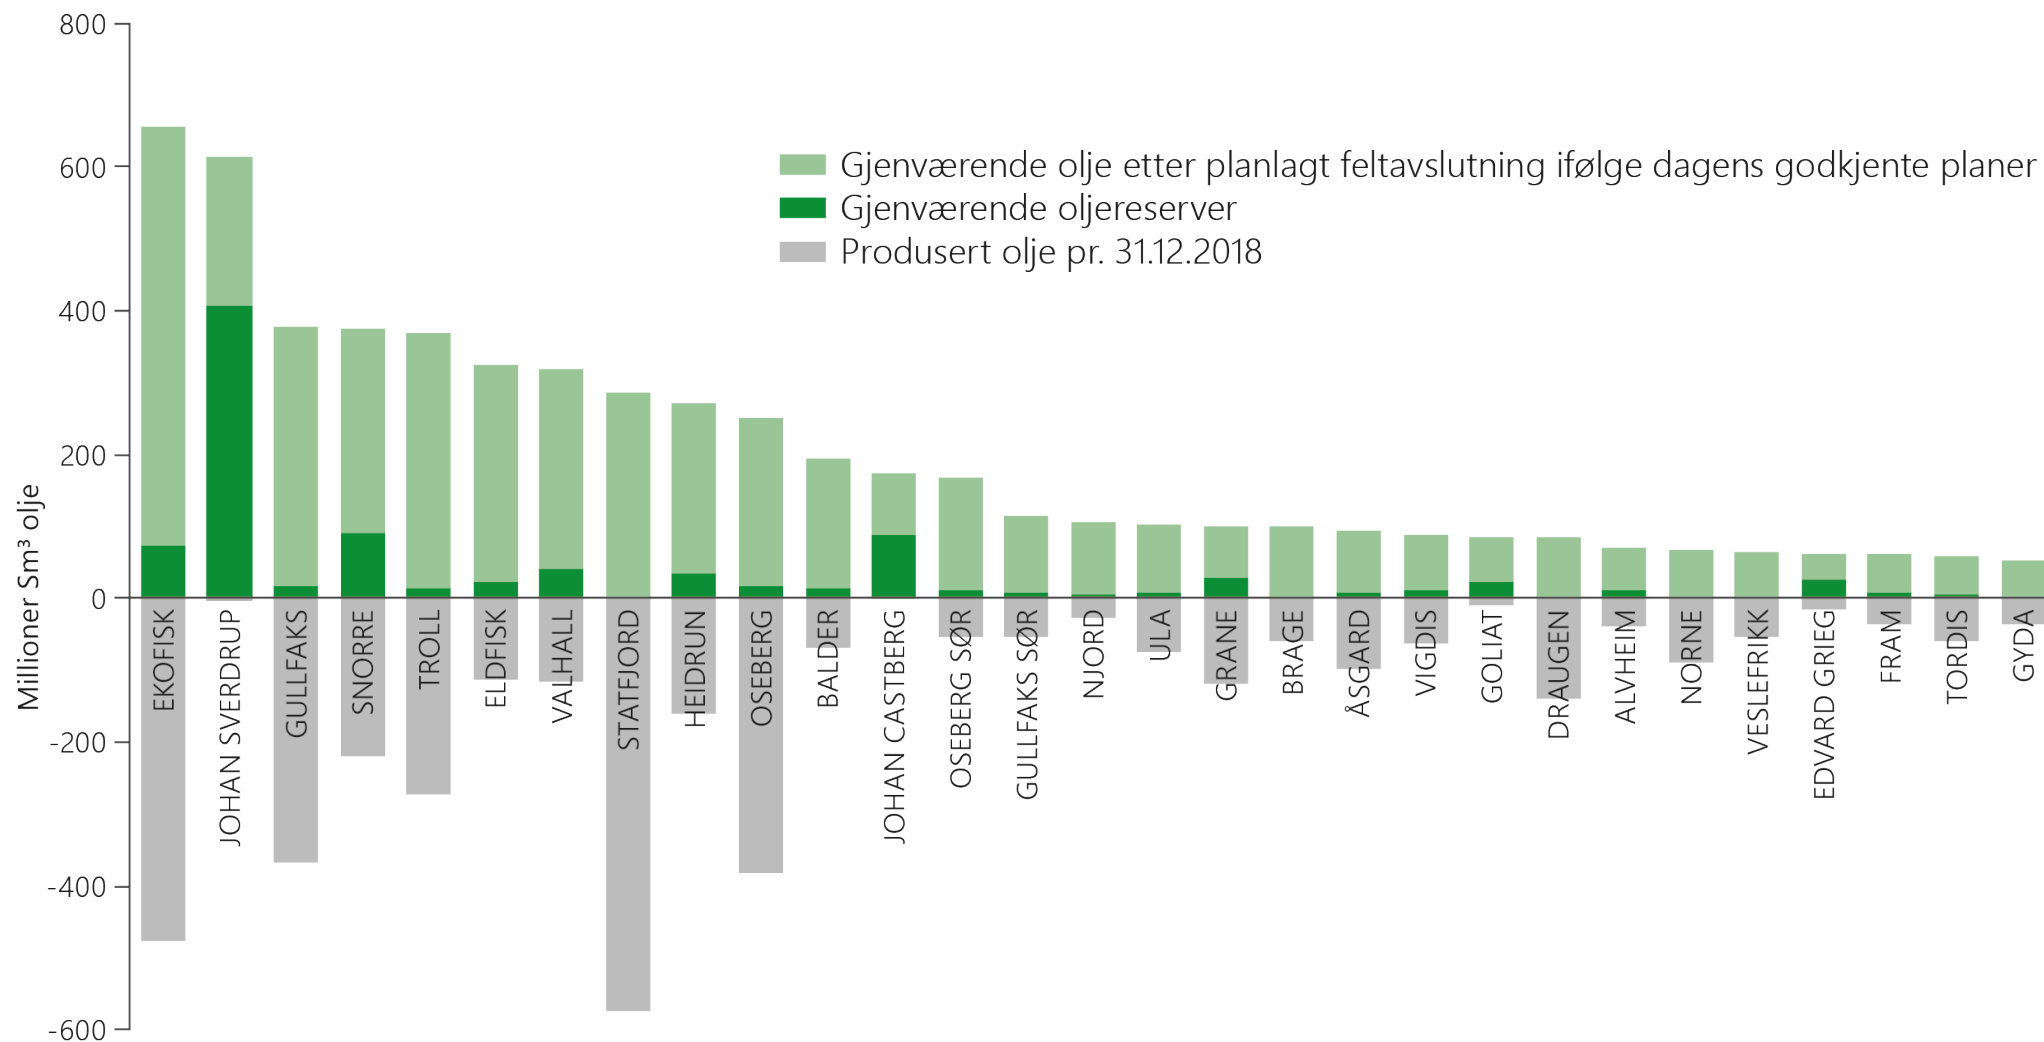

Nye reserver på gamle felt

Ressurs-
rapporten
2019

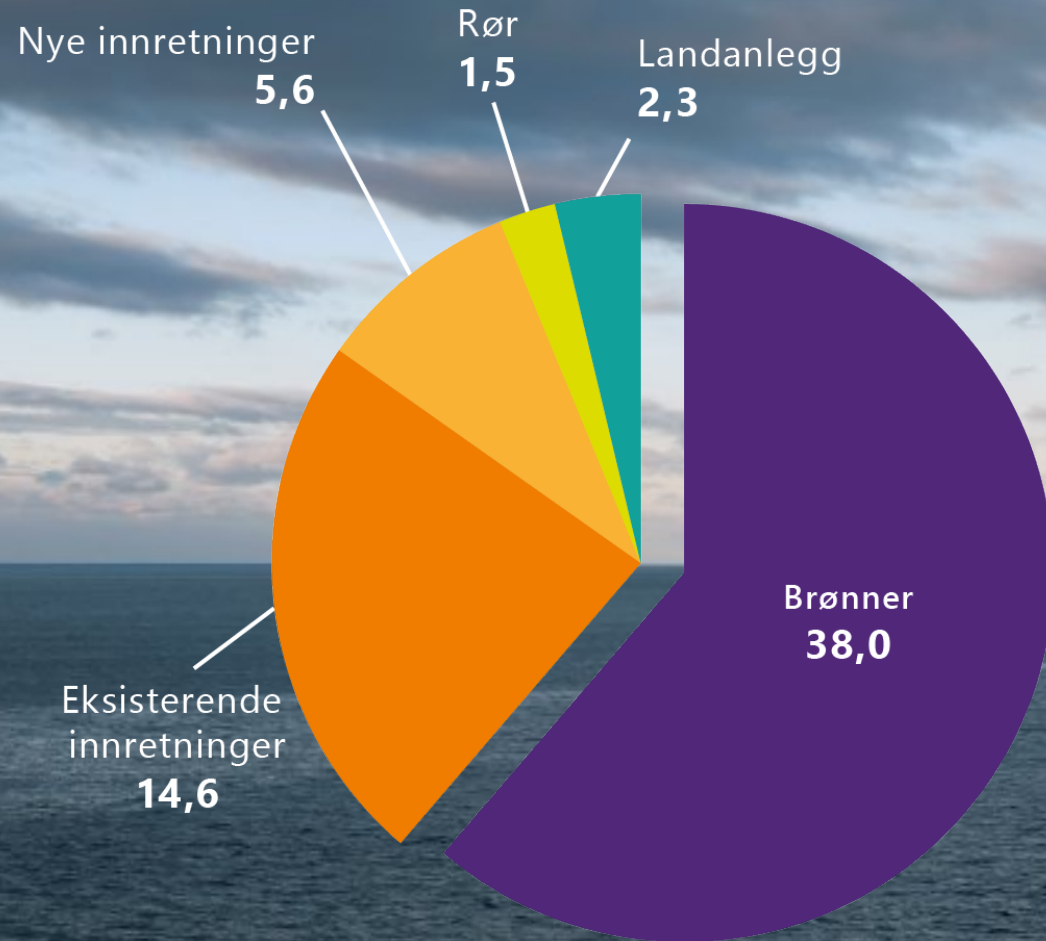

Alle samfunnsøkonomisk lønnsomme ressurser skal utvinnes

Brønner er det viktigste tiltaket for økt utvinning

Ressurs-
rapporten
2019

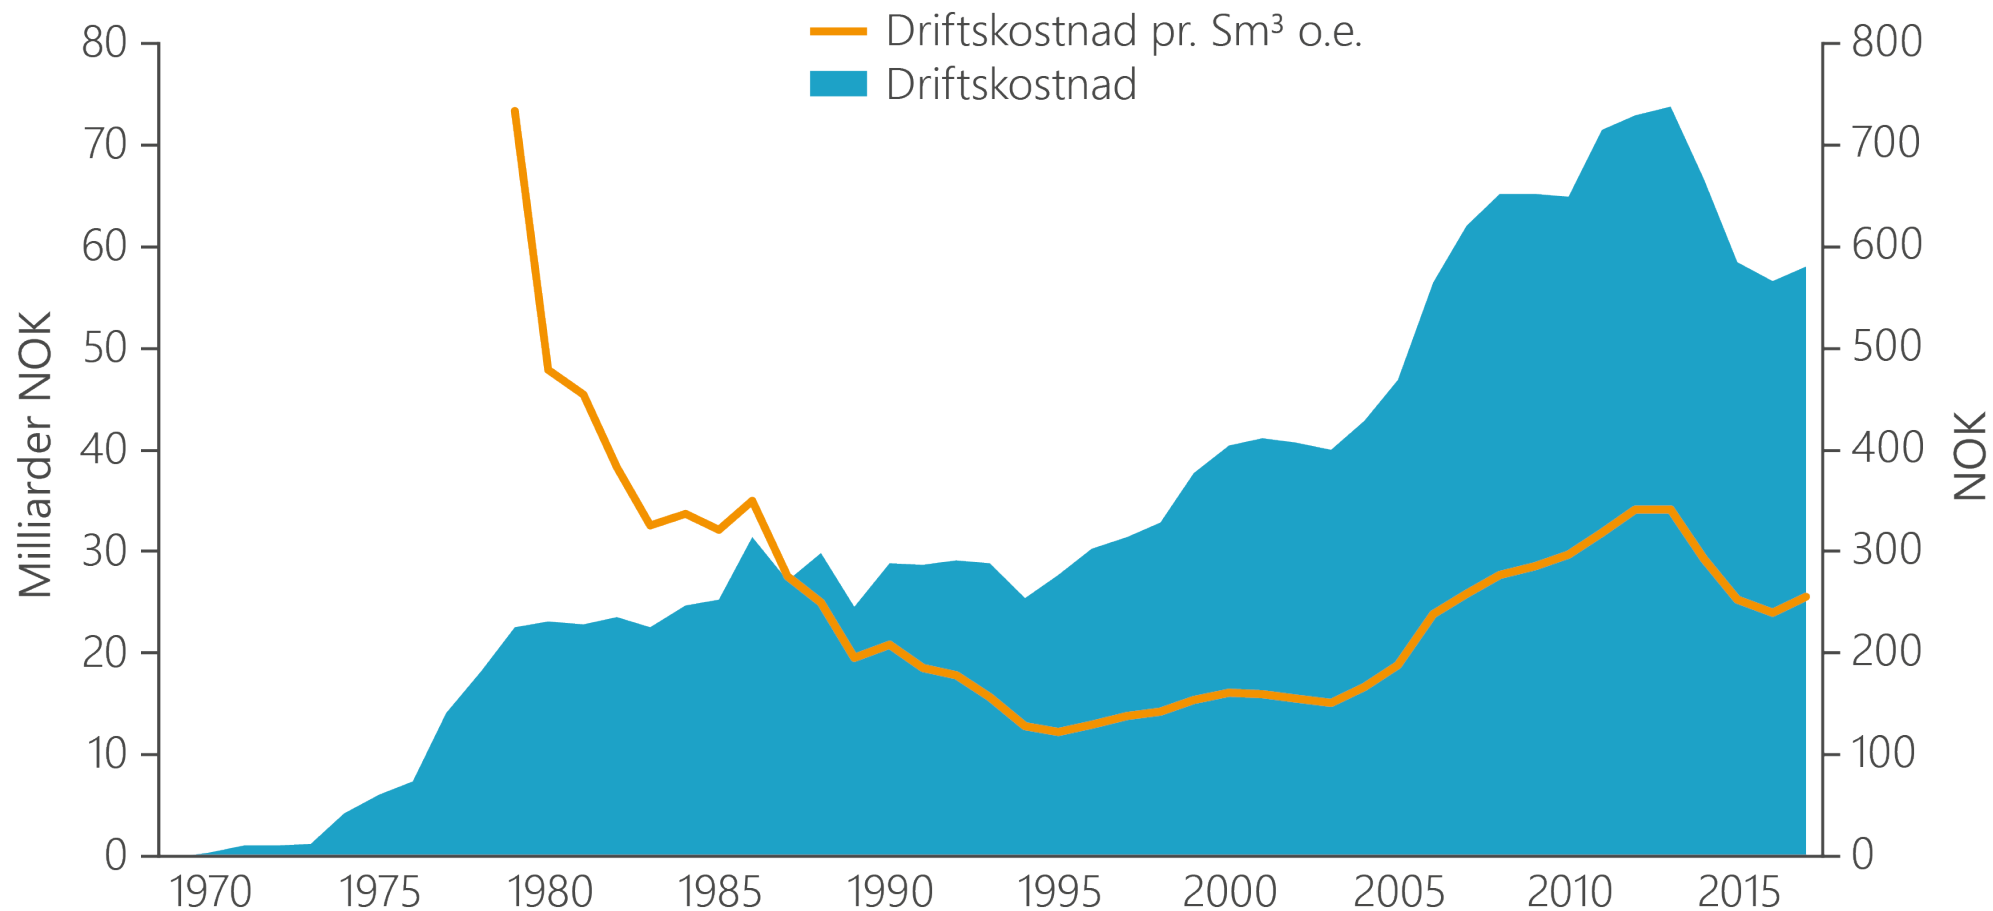

Tallene er
oppgitt i
milliarder
2018-kroner

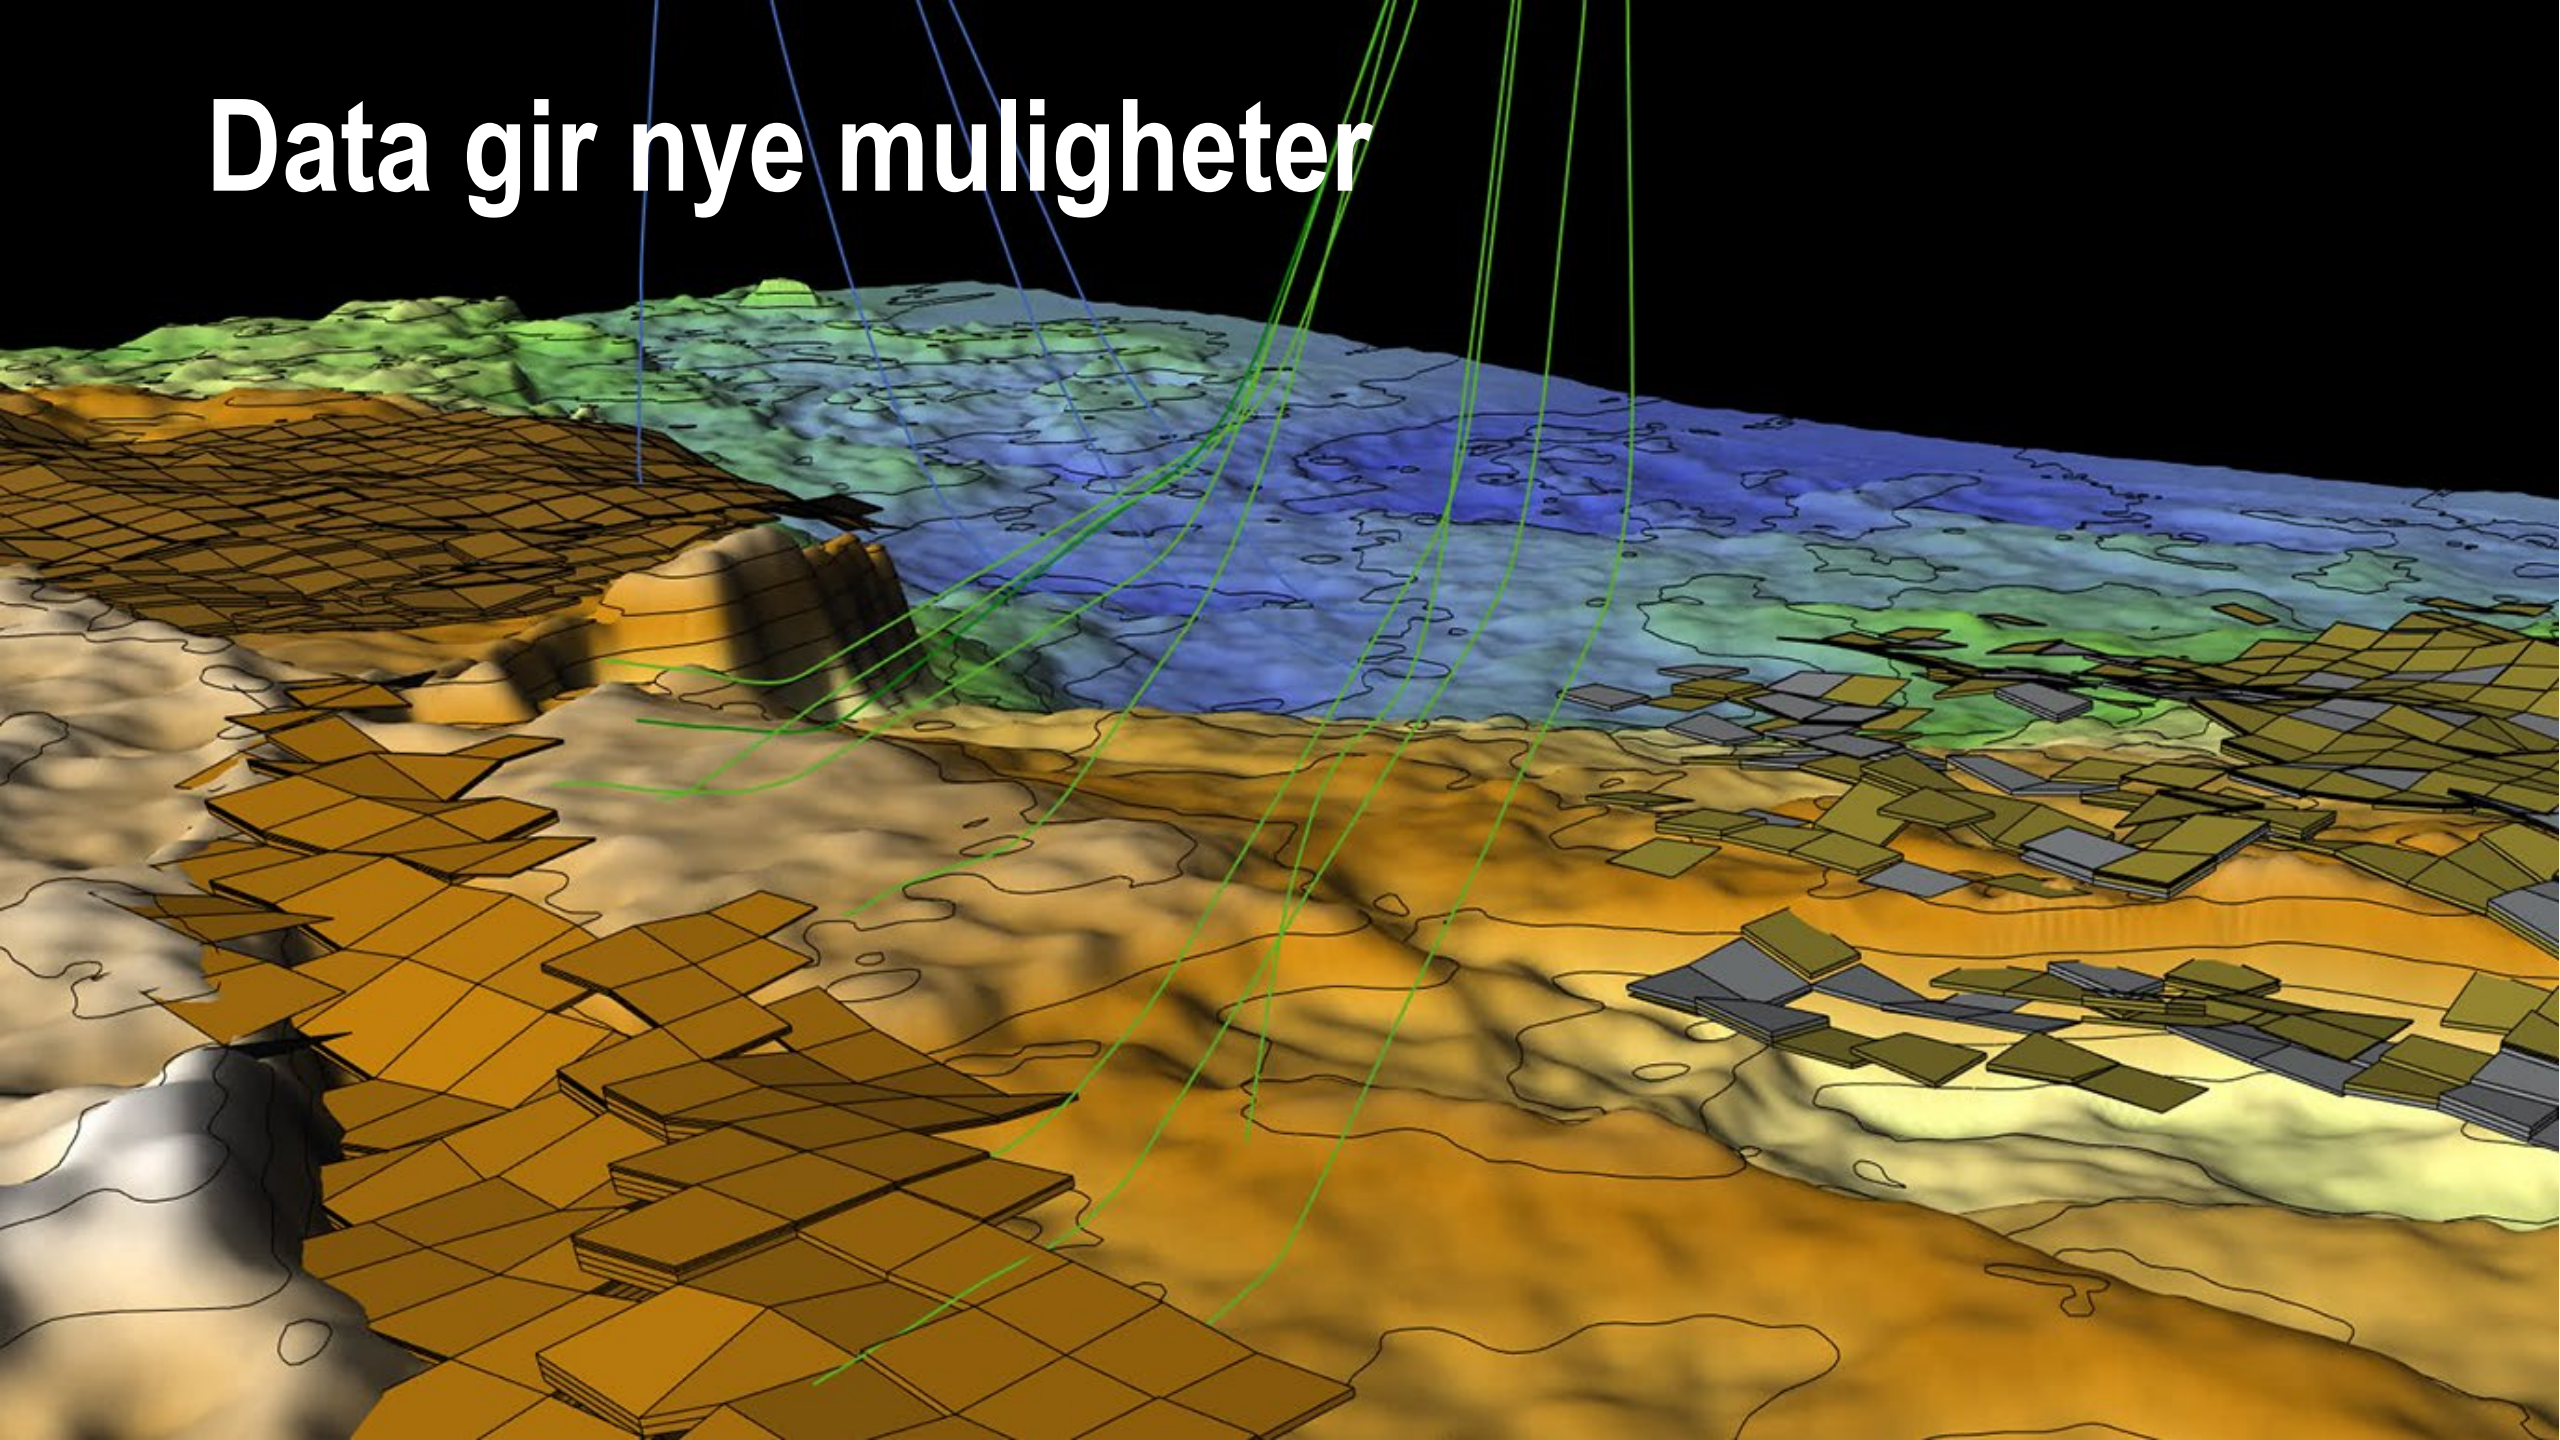

Driftskostnadene har gått ned

Ressurs-
rapporten
2019

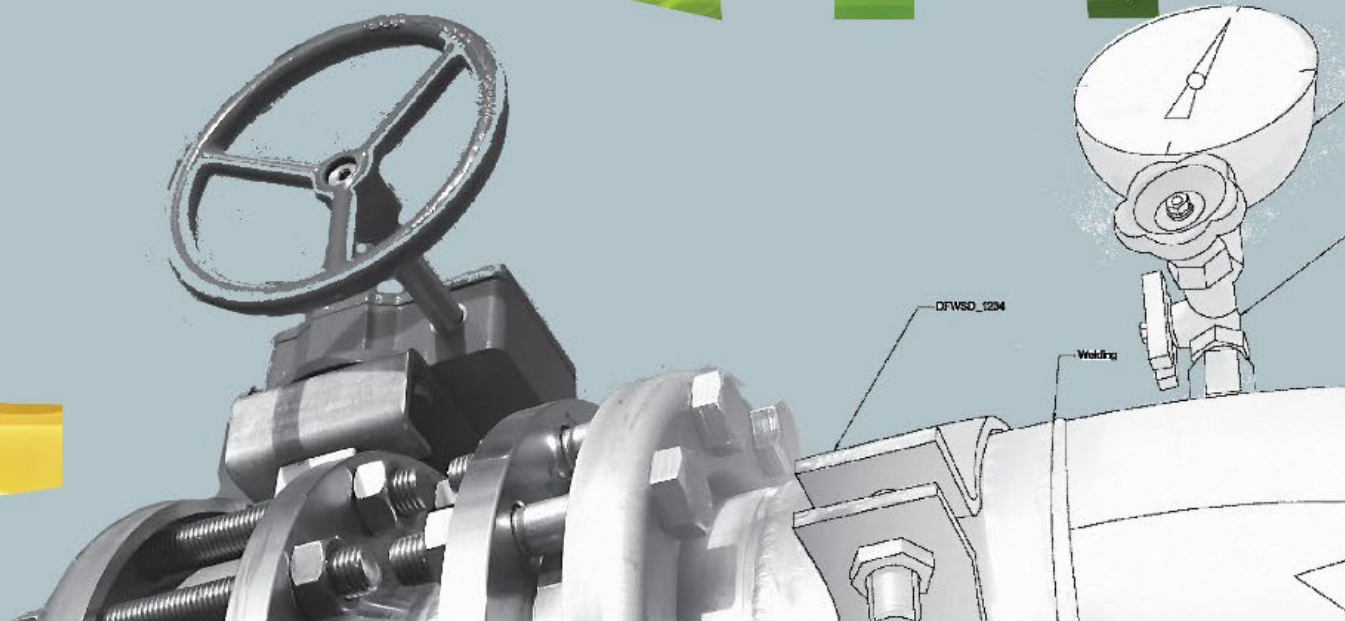

Data gir nye muligheter

Store muligheter i funnporteføljen

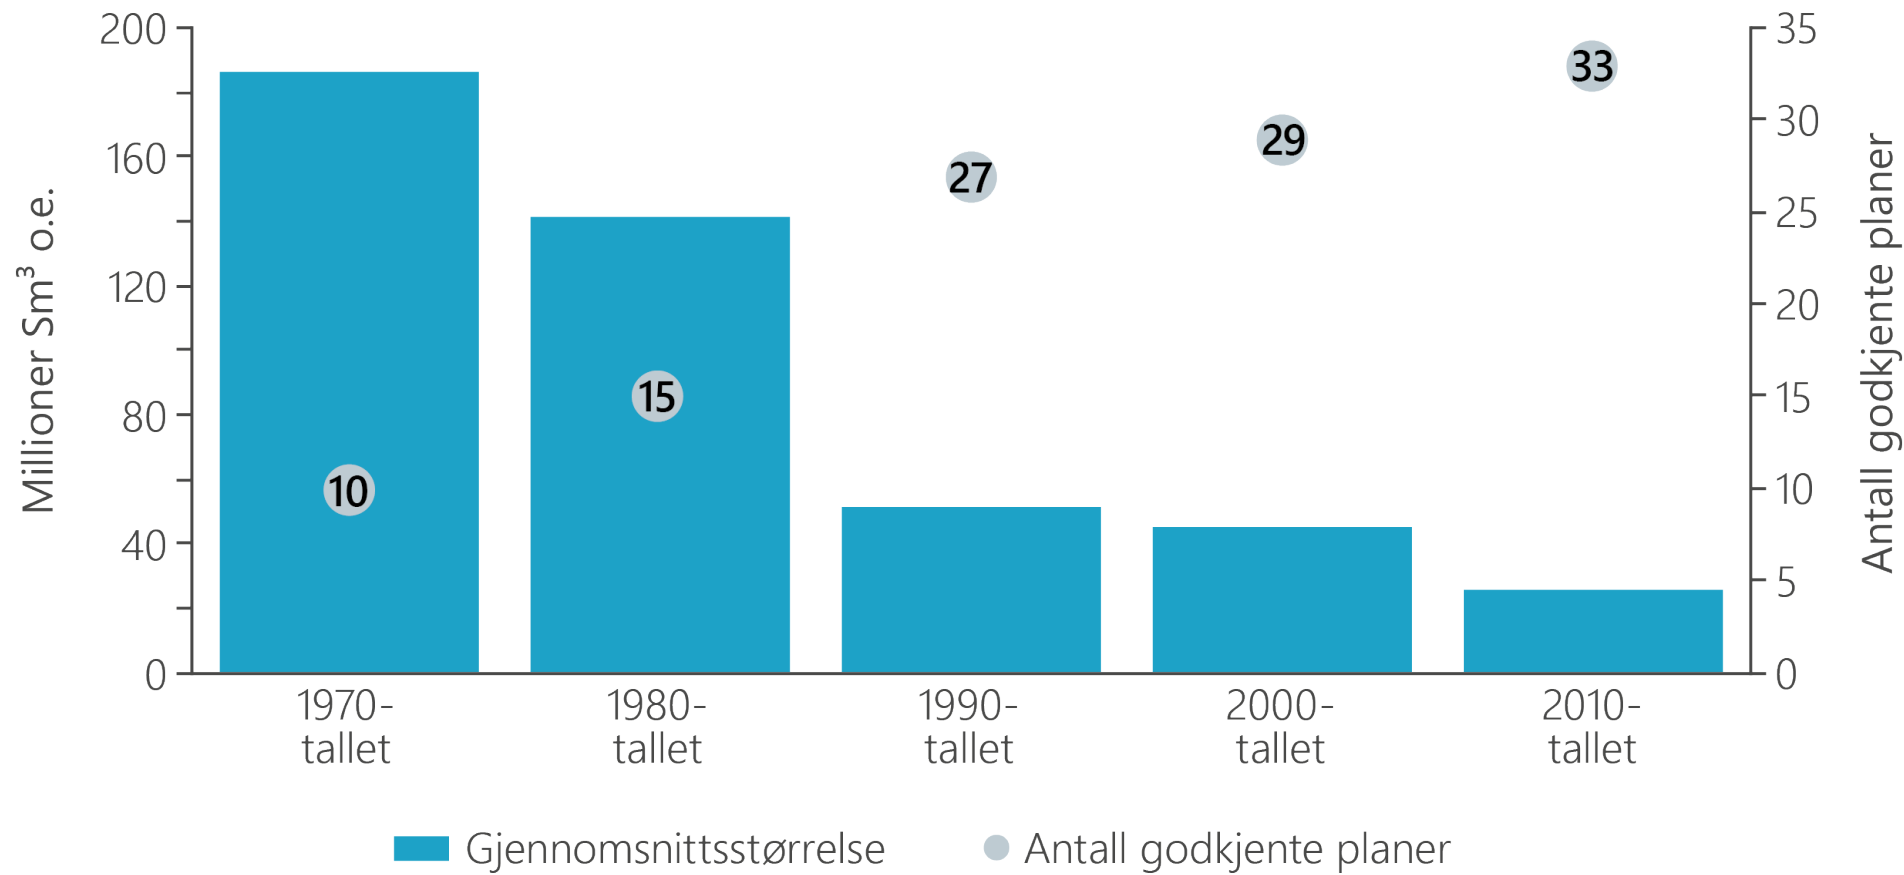

Ressurs-
rapporten
2019

Det er lønnsomt å bygge ut stadig mindre funn

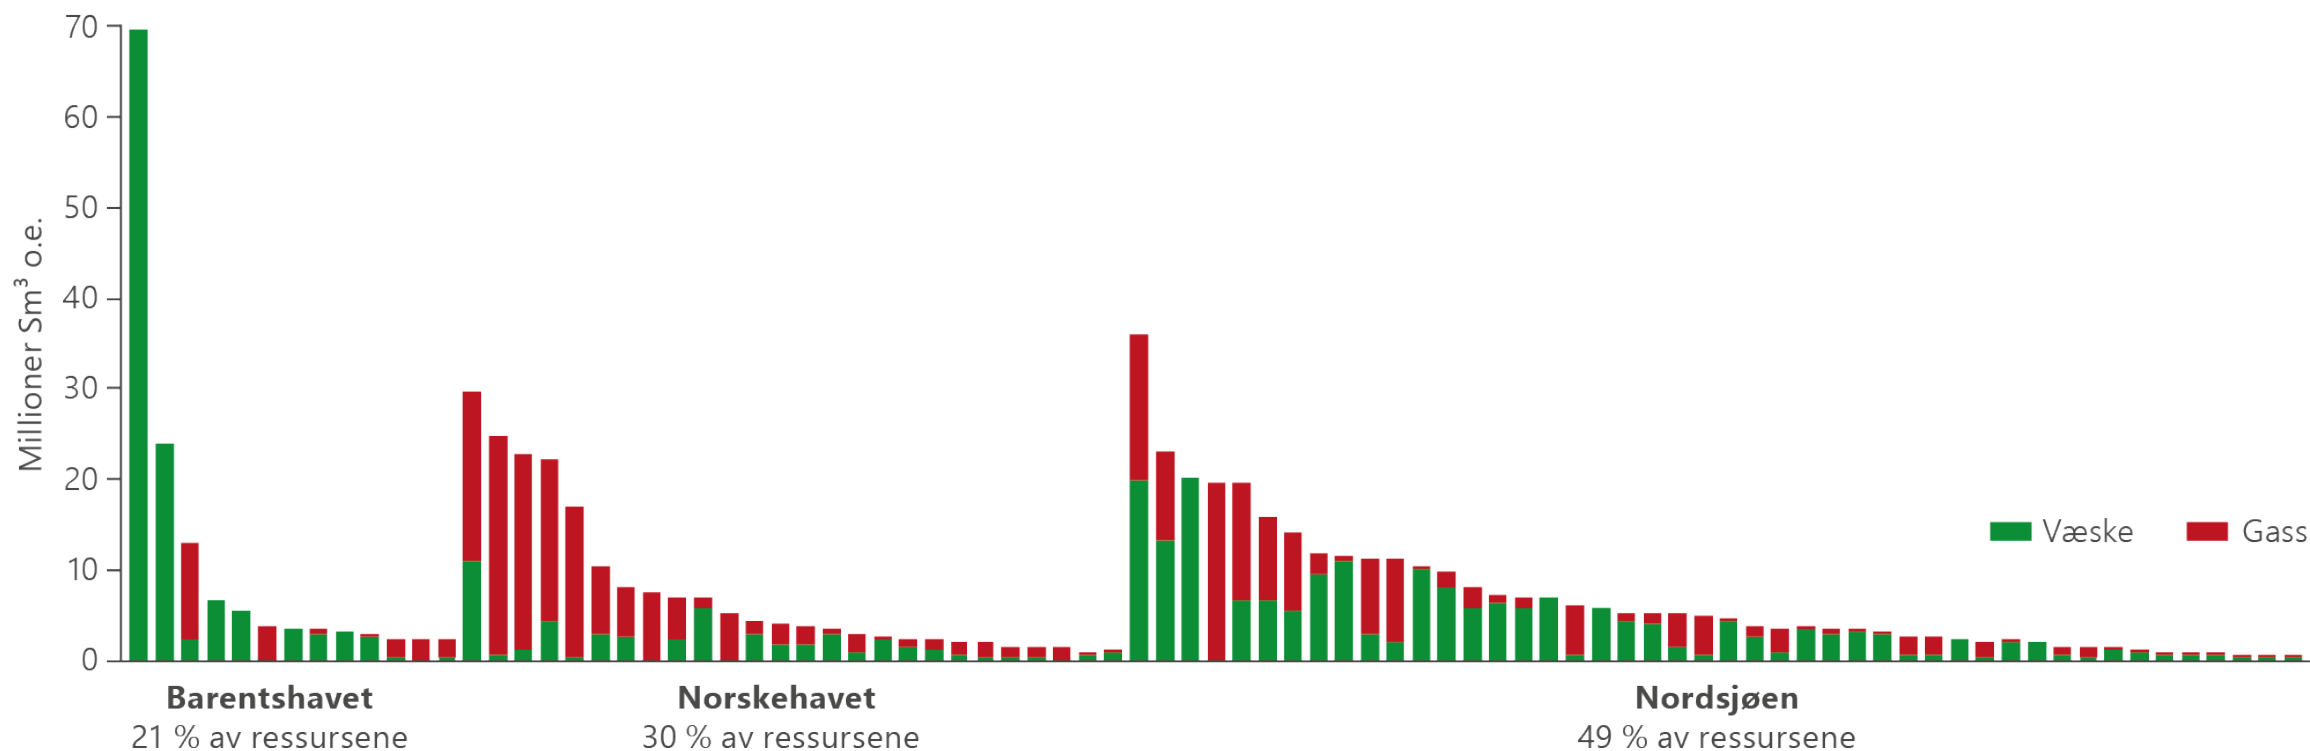

Ressurs-
rapporten
2019

Mange funn – mange muligheter

Ressurs-
rapporten
2019

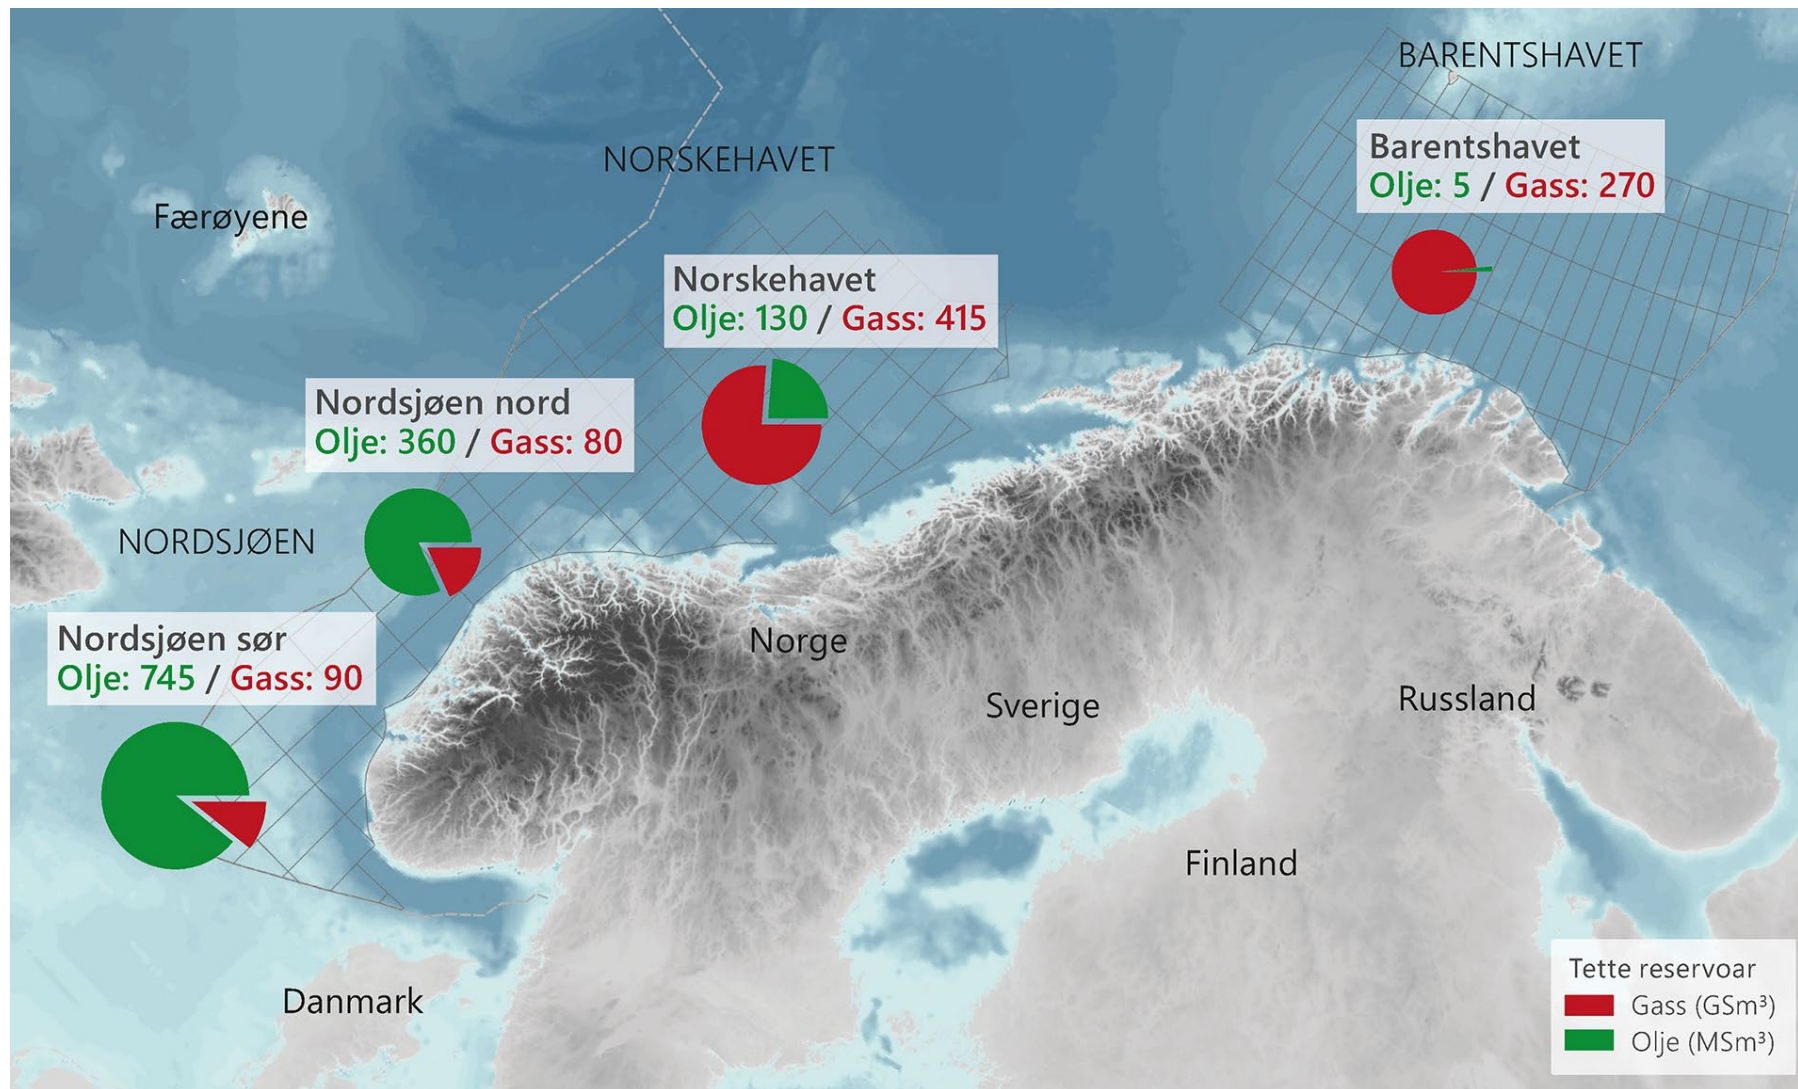

De utfordrende fatene

Ressurs-
rapporten
2019

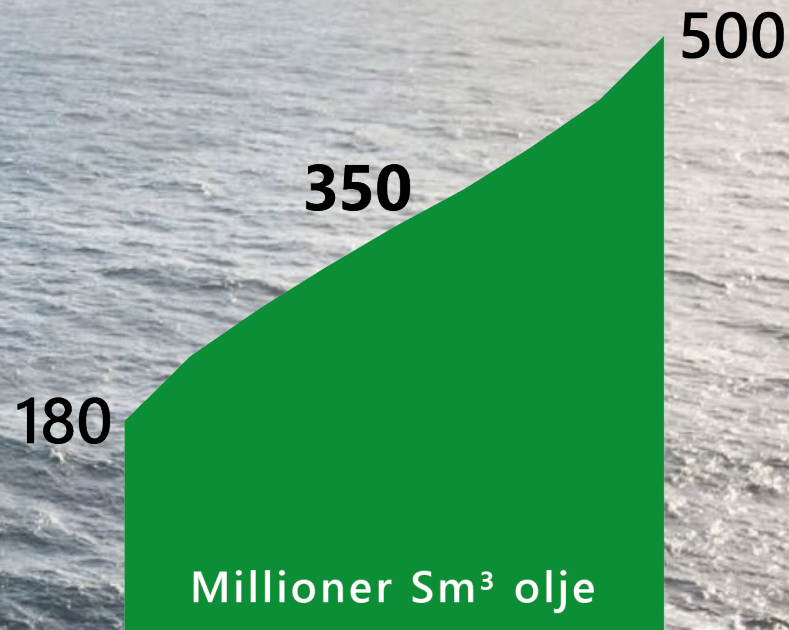

Mye olje og gass i tette reservoar

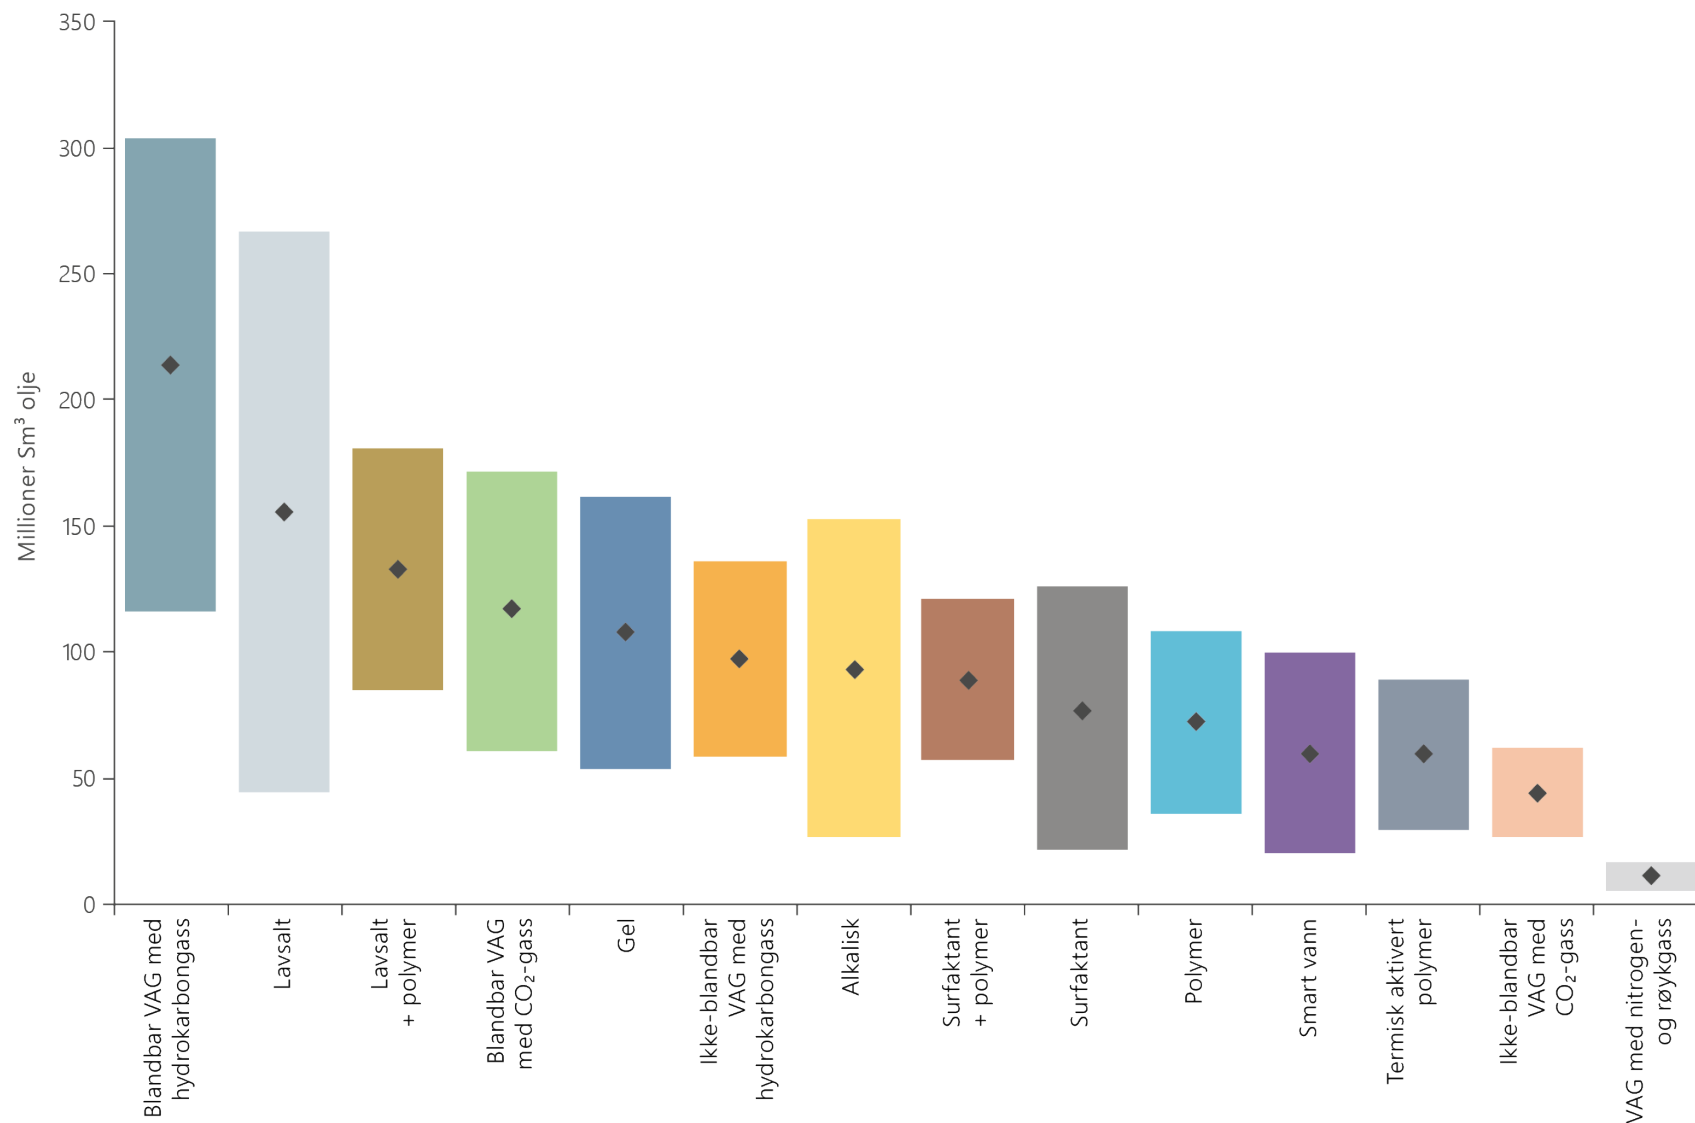

Et betydelig EOR-potensial

Ressurs-
rapporten
2019

Nå er det på tide med feltpiloter

Utslipp og miljø

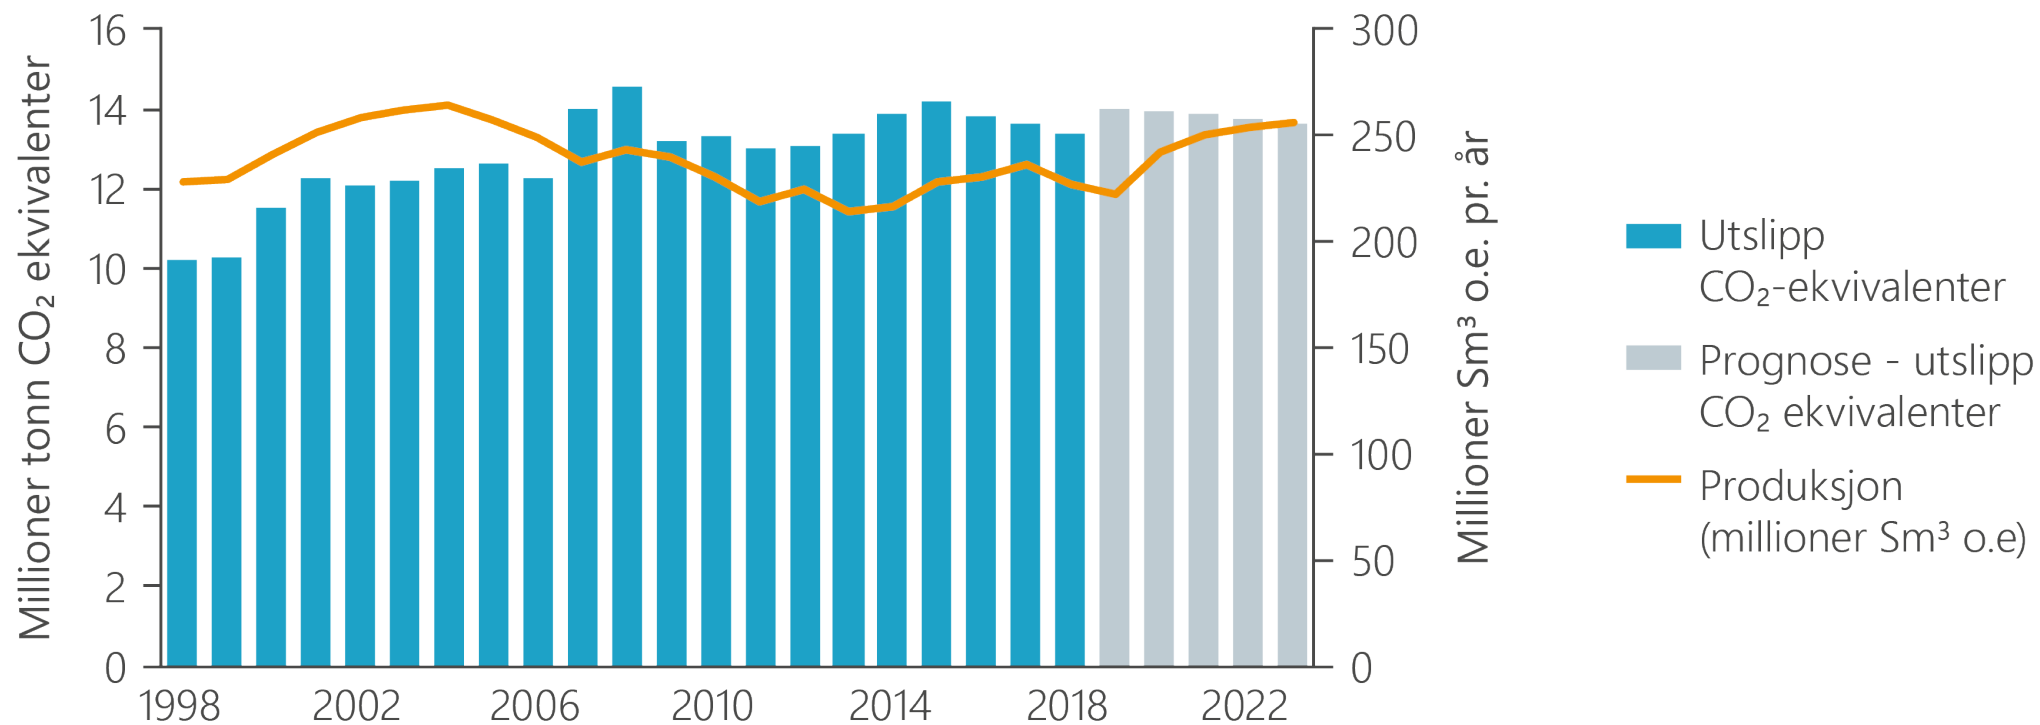

Ressurs-
rapporten
2019

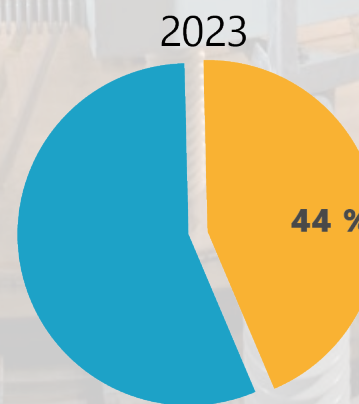

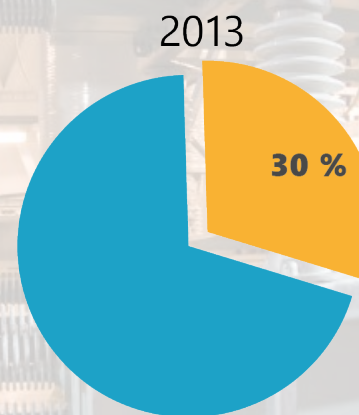

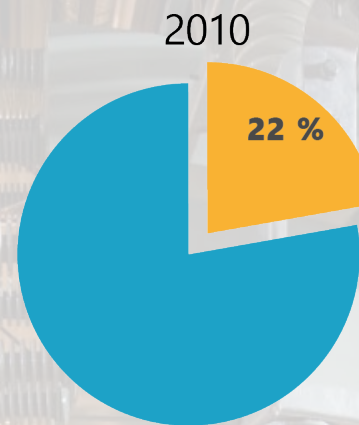

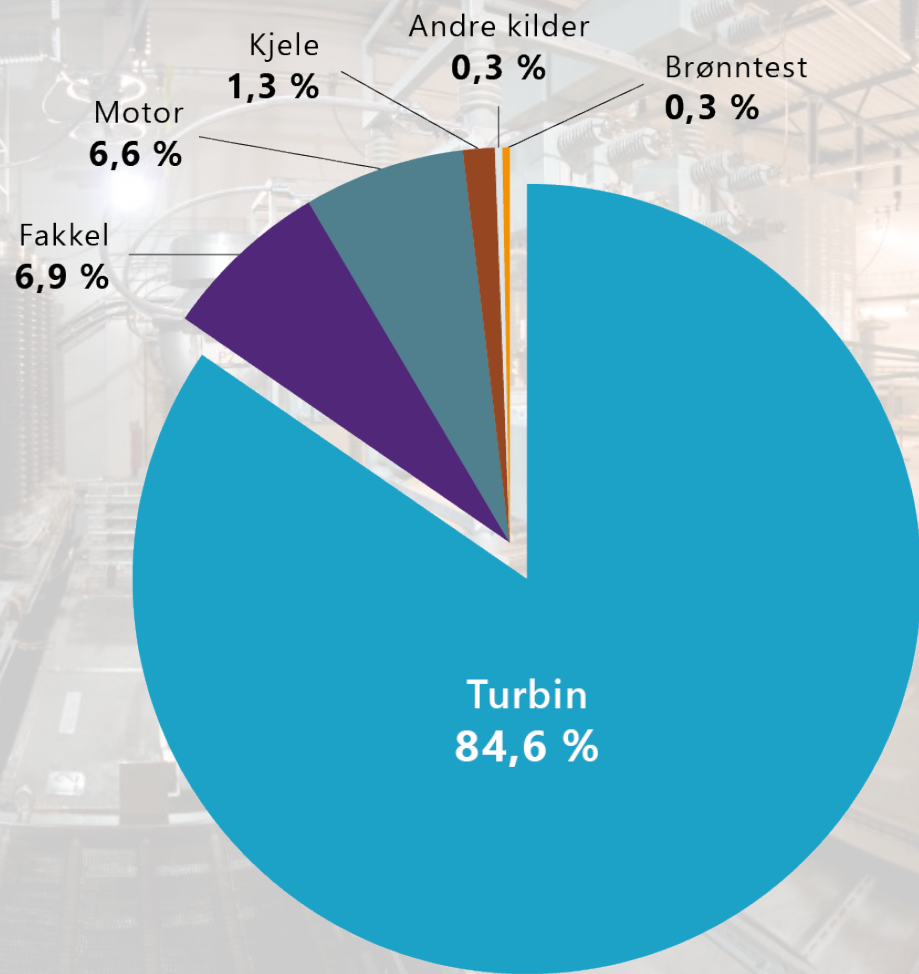

Produksjonen øker, utslippene er stabile

Ressurs-
rapporten
2019

Turbindrif er den største utslippskilden

■ Produksjonsandel med egen kraftproduksjon
■ Produksjonsandel med kraft fra landnettet

Ressurs-
rapporten
2019
